

Environmental Policy

The management of Finesse Control Systems Limited is committed to care for the environment and has identified the following actions which we expect our employees to support:

- Continually strive to achieve our goal of no harm to people and no pollution of the environment.
- Comply with all environment legislation and standards that apply to our activities.
- Develop a culture that will promote sustainable development.
- Remove or minimise discharges, emissions and waste.
- Reuse and Recycle waste materials wherever practical.
- Ensure that materials, processes and products conform to best environment practise.
- Reduce the consumption of natural resources and use energy efficiently.
- Contribute positively to our customer's environmental objectives.
- Whenever the opportunity presents, encourage our suppliers and customers to adopt a similar standard to environmental performance.
- Operating an ISO 14001 compliant management system.
